HAPPIER WORKERS. STREAMLINED OPERATIONS.

A bold claim. But seriously: Customers report employee satisfaction as one of the greatest perks of our carts. It's easy to understand why – workers are more contented when they are productive and comfortable. Workers love these carts, which boosts employee retention and helps to relieve staffing issues.

2X PRODUCTIVITY

Get the most from every valuable employee – higher job satisfaction too. With a portable workstation, your employees can know that they are putting in a more productive day. This not only leads to benefits for your bottom line but it helps them as well.

TRIMMED PAYROLL

Higher output in fewer hours will benefit you come payroll time. A Newcastle powered cart will not only make your employees happier but your bottom line as well.

Ergonomic design

Effortlessly move the workstation throughout the workplace

Flexible and efficient

Minimize disruptions and increase productivity

92% FEWER ERRORS

Input, print and apply labels at the dock—say goodbye to pricey mistakes.

QUICK PAYBACK

Predictable 6-8 month ROI, then years of benefits.

Integrated power supply

Reduce downtime and eliminate the need to return to a fixed workstation
