

NEW PRODUCT INTRODUCTION

September 2010

7900 Slide Series

Accuride presents models 7950 and 7957, two new slides designed to expand the company's heavy-duty slide line-up and provide an intermediate load rating choice between the 3600 and 9300 products. These products are a good drop-in alternative for wide drawer applications, giving fabricators additional slide options for mid-range loads, while reducing costs and increasing the aesthetics of the finished product.

Features and Benefits

- Full extension for complete access.
- Dual mounting; side or flat mount:
 - Side mount load capacity up to 350 lbs. [159 kg].
 - Flat mount load capacity up to 150 lbs. [68 kg].
- Cross section width .75" [19.1 mm].
- Accommodates drawers up to 42" [1067 mm] wide.
- Available in even lengths 12" to 36"

Model 7950

- Non-disconnect

Model 7957

- Handed lever disconnect

There are two additional models available by special order: Models 7937 (lever disconnect) and 7930 (non-disconnect), which offer the same features in a narrower cross section width of .724" [18.4 mm].

Availability/Packaging

These slides are available in a clear zinc (C) finish. Packaging includes: D-Pack (one pair of slides packaged in a polybag; mounting hardware not included) and P/Bulk for production and LTP. D-Pack is also available through QuickShip. Pricing information is available on the Accuride extranet. For complete packaging details, please refer to the technical sheets or pricing pages for these products.

Thank you for your continued support. As always, Accuride remains committed to excellence in product design, quality, and service. Your feedback is appreciated.

Sincerely,

Calvin Luce
Director of Distribution Sales
