

NEW PRODUCT OFFERING FROM HEYCO

HEYCO SMOOTH BORE BUSHINGS

Heyco is pleased to announce our newest product offering – **Heyco Smooth Bore Bushings**.

The Smooth Bore Bushings offer the following benefits:

- Extra internal insulating sleeve creates a smooth bore and prevents locking fingers from protruding into the ID of the Bushing.
- Large radius hole.
- Used to protect through-holes. Eliminates sharp edges so wires are protected.
- Absorbs vibration, and cushions and insulates wires.
- Can be used as bushing for rotating shafts.
- Bushing inserts into mounting hole with fingertip pressure.
- Made of 6/6 Nylon.
- UL recognized under File E15331 and CSA certified under file LR8919.
- 94V-2 flammability rating.

Heyco Smooth Bore Bushings can be used in the following applications: Combiner Boxes, Industrial Equipment, Appliances, Medical Equipment, Motors & Generators, Pumps, Control Panels, Hydraulic Lifts, and Scientific & Other Instruments.
