

SRCC

Richco is pleased to announce the release of our new Strain Relief Clamp. The SRCC-1 provides light strain relief when the maximum cable diameter of .177" (4.5mm) is installed. The clamp is mounted by hand using two M3 or #6 screws. The clamp is gray in color, and is manufactured in a durable Nylon 6/6 material.

Features

- Provides light strain relief when maximum cable diameter is installed
- Protects and routes cable and fiber
- Mounts with the use of two screws (not included)
- Made of Nylon 6/6 material in gray color
