# BUNDLING SOLUTIONS & OTHER ACCESSORIES

**SunBundler®** (For managing larger bundles ranging from 2.30" to 9.87" in diameter)  
**Aircraft grade stainless steel wire with UV-protected vinyl jacket.**  
**Ideal for use in extreme conditions.**

100 Pack	Bulk Pack
S6408	S6409
S6410	S6411
S6412	S6413
S6414	S6415
S6420	S6421
S6424	S6425
S6426	S6427
S6428	S6429
	(1000 pcs per item)

**Heyco® Nytye® Nylon 12 Cable Ties** (Manages bundles ranging from .87" to 7.80" in diameter)  
**Weather/UV resistant and suitable for high moisture, corrosive, and low temperature indoor or outdoor applications. Various tensile strengths and lengths available**

**Heyco® Nytye® Nylon Cable Ties** (Manages bundles ranging from .63" to 18.07" in diameter)  
**Easy-to-install way for managing cables. Light UV resistance—not recommended as the primary method for securing cables due to sensitivity to environmental conditions.**

**Helios UVX Clip** (Installs into a .260" mounting hole and holds up to 2 cables between .230 - .315" each).

**Heyco® Heavy Duty Lockit™ P Clamps** (for routing & securing larger bundles or conduit/tubing)  
**Unique design allows for easy installation and release features enable serviceability and maintenance.**

**Heyco® Heavy Duty Nylon Lockit™ P Clamps** (for routing & securing larger bundles or conduit/tubing)  
**Unique design allows for easy installation and release features enable serviceability and maintenance.**

**MaxRunner** (Hold up to 12 cables with wire diameters ranging from .20" (5,2 mm) to .28" (7,2 mm).  
**Attaches to materials from .06" to .25" thick with clip mount version or for more versatility, the flush mount version attaches with screws (not included).**

**SunRunner CT & SunRunner CT-EZ** (Works with SunBundlers, Stainless Steel Cable Ties, & UV Nylon Cable Ties)  
**Ideal for use where holes cannot be used or where adhesives are unacceptable.**  
**CT version accommodates panels from .06" - .12". CT-EZ version accommodates panels from .12" - .25"**

**Stainless Steel Cable Ties** (Bundles up to 11.81" in circumference)  
**Stainless steel cable ties have more strength and better durability than nylon cable ties. Coated ties offer additional protection on the wire/cable bundle.**

**SunScreener® Stainless Steel Wire Mesh Clips & SunScreen™ Wire Mesh** (Used together, helps protect solar panels from damage caused by rodents and nesting birds)  
**Mesh size: 0.5" x 0.5" openings. Available in 4", 6", & 8" widths x 100' rolls.**

## CORDGRIPS / SOLAR MASTHEADS

**Heyco®-Tite Solar Masthead II Liquid Tight Cordgrips** (Eliminates the need for multiple entries into combiner boxes, junction boxes and other enclosures)  
**Unique, skinned-over technology remains liquid tight even if all holes are not being used.**  
**Accommodates a variety of cable diameters/configurations.**

**Heyco®-Tite Liquid Tight Cordgrips for Enphase Q Cables** (Designed specifically for Enphase Q Cables)  
**Provides a liquid tight connection into junction boxes for either 2 Enphase cables and 1 ground or a single Enphase cable.**

**Heyco®-Tite Liquid Tight Cordgrips** (Provides a liquid tight connection for single cables or multiple cable configurations into micro-inverters, junction boxes, and other pieces of equipment)  
**Available in NPT, Metric, and PG.**
