

FOOD EQUIPMENT

QUALITY

With over 6,000 products in our general catalog and opportunities to customize components, we take pride in bringing you a vast selection of high-quality products ranging in function, size, and material. Our NSF certified components are ideal for kitchens, service areas, and anywhere food grade materials are required.

Ranging from durable catches, latches, and handles for food equipment to a wide variety of functional 304 stainless steel hinges, folding brackets, and utility hooks, Sugatsune's hardware has helped industrial engineers, food equipment manufacturers, and restaurants in the U.S. for 40 years.

COMPONENT
