

## NEW PRODUCT – FLEXILOK FITTINGS FROM FLEXICON

Heyco, as Flexicon's exclusive North American source, is happy to introduce our newest product offering – **Flexilok Nylon Conduit Fittings** for use with Flexicon corrugated conduit/tubing.

Flexilok Fittings offer the following benefits:

- One piece fast fit allows for quick installation.
- Slim-line design is a space saver.
- Suitable for use with both coarse and/or fine pitch conduit/tubing. No threading of the conduit/tubing is required to install.
- Low fire hazard. Halogen, sulphur and phosphorous free.
- UV resistant.
- All nylon construction resists salt water, weak acids, gasoline, alcohol, oil, grease and common solvents.
- IP 66 rating – protection against dust and water protection.
- Available in PG and Metric hubs.
- Temperature Range of -58°F (-50°C) to 275°F (135°C)

Flexilok fittings can be used in the following applications: pumps, motors, HVAC systems, machine tools, electrical housing, robotics and automation.
